Bei Stülpgläsern ist die Fußstärke  $([a-b] : 2)$  entscheidend für den festen Sitz im Gehäuse. Beachten Sie bitte, daß es zu kuranten Außendurchmessern verschiedene Innendurchmesser (also verschiedene Fußstärken) gibt.

With top glasses, the thickness of the base determines the tight fit in the case. Please note that there are different inside diameters (i. e. different thicknesses of the base) for one and the same outside diameter.

Für die richtige Auswahl von Stülpgläsern müssen Sie zusätzlich den notwendigen Innendurchmesser genau messen.

For the correct choice of top glasses one has to measure the appropriate inside diameter carefully.
